GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 14.)

BAY OF BENGAL—GULF OF MARTABAN.

APPROACHES TO THE RANGOON RIVER.

Reported alteration of China Ba-keer Sands.

THE Port Officer, Rangoon, has notified that information has been received from the senior officer in charge of the pilot vessel *Pharos* of a material alteration in the position of the edge of the sand in the neighbourhood of the China Ba-keer Light-house.

The vessel, when approaching the light-house on a west-by-south direction on the last quarter flood, passed over a ridge with no soundings on it, the water thereafter shoaling quickly to 12 feet.

From examination, taken in connection with the evidence collected, it is believed that there is dangerously shoal water extending half a mile seaward of the light-house, and that there are dry sands where formerly there were 12 feet of water at lowest tides.

NOTE.—Mariners are hereby cautioned to give that part of the coast a wide berth.

By direction of the Government of Bengal,
J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

NOTIFICATION.

The 27th March 1883.—The following rules regarding salt, on which duty has not been paid, conveyed under bond from Chittagong to Naraingunge, having been approved by the Lieutenant-Governor of Bengal, are published for general information.

A. P. MacDONNELL,

Offg. Secretary to the Govt. of Bengal.

Rules for the removal of non-duty-paid salt under bond to Naraingunge from boardship or from bond at Chittagong.

AN application in writing, specifying the name, tonnage, and master's name of the vessel intended to convey salt under bond for Naraingunge, must be made to the Collector of Customs, Chittagong, 24 hours previous to the time at which it is intended to commence loading.

2. Non-duty-paid salt may be conveyed under bond from Chittagong to Naraingunge by such vessels only as are approved by the Collector of Customs, Chittagong. Each vessel must carry a special pass in the annexed form under the signature of the Collector of Customs, Chittagong, covering the consignment of salt shipped by it.

3. The salt when placed on board such vessels must be stamped all over and conveyed under sealed hatches. Both the seals on the hatches and the stamps on the salt as reported on clearance by the Collector of Customs at Chittagong shall be separately examined and reported on by the salt darogah to the Collector of Customs, Naraingunge, on receipt of whose orders on the darogah's reports the seals may be broken and the salt weighed.

4. Salt on which duty has not been paid can only be removed from Chittagong under a bond to be executed by the bonder prior to the departure of the vessel or vessels conveying such salt. The bond shall be in the form appended to these rules, and shall state that the salt will arrive at Naraingunge within twenty-one days from the granting of the port clearance during the north-east monsoon (*i. e.*, from the 16th September to the 30th April) or within fifteen days from the date of the granting of port clearance during the south-west monsoon, (*i. e.*, from the 1st May to the 15th September). Port clearance shall not be granted till after the due execution of the bond and after the quantities entered in the tally books have been found to agree with those entered in the manifest (or cargo books) of such vessel or vessels. Single bonds may be accepted for any quantity of salt not exceeding 20,000 maunds, and shall cover all the vessels being loaded with the quantity of salt for which the bond in each case is given; and such vessels must, in each case, be named in the bond. The number and date of the bond is to be noted in the pass which accompanies each vessel, and in the copies of the pass retained by the Collector of Customs, Chittagong, and forwarded to the Collector of Customs, Naraingunge, respectively.

5. The vessel on arrival at Naraingunge shall be anchored as close as possible to the ghât leading to the warehouse in which the salt is to be stored, or at the nearest moorings to such ghât.

6. The weighment of the salt shall be made in the presence of the salt darogah, and a Customs peon shall invariably remain with the salt until the weighment shall have been completed. Weighment of the salt shall be made, as a general rule, on board the importing vessel. It will, however, be competent to the Board, on sufficient cause being shown, to permit the salt of any bonder to be weighed after removal to the shore, under such suitable precautions, to be taken at the sole expense of the bonder, as may be prescribed by the Collector of Customs, Naraingunge, and approved by the Board.

7. The salt shall be stored in a licensed warehouse immediately the weighment shall have been made. The door of the warehouse shall have two locks; the key of one lock (which must be a Chubb's lock) shall remain with the darogah, and the key of the other with the bonder's agent.

8. The bonder will be required to defray the cost of the preventive officers and all charges attendant on the weighing of the salt, both at Chittagong and Naraingunge, such weighments being conducted as laid down in the Board's rules for weighing salt intended for bond at Chittagong.

9. Both Customs officers and the exporter's agent will be required to certify at the end of each day's weighments the correctness of the tally book for that day's work.

10. The working hours with regard to delivery and weighment of salt shall be from 6 A.M. to 3 P.M., or such others hours as may be fixed from time to time by the Collector of Customs with the approval of the Commissioner.

11. If from any cause the weighments cannot be completed in one day, extra peons as may be considered necessary by the Collector of Customs shall be appointed to guard the salt, the cost being borne by the bonder.

12. When the discharge of salt from shipboard at Chittagong for conveyance under bond to Naraingunge is interrupted, or not completed, such quantity as has been actually delivered at the time of interruption shall be covered by a Customs boat-note. The salt so delivered must also be completely stamped over, and the hatches and all access to the hold must be sealed by Customs seals, to be examined by the night Customs Inspector, who must record his report of each such inspection.

13. The owner of the salt shall be required to pay full duty on any difference between the quantity of salt weighed over the ship's side or out of bond at Chittagong and the quantity weighed out of the brig or steamer at Naraingunge, less an allowance of one per cent. for wastage during the passage, if such wastage actually occurs.

14. On arrival at Naraingunge the salt shall be immediately bonded under proper supervision, the duty on the warehousing bill-of-entry being calculated on the whole quantity delivered on weighment from the vessel or vessels covered by the bond. As salt is cleared from bond, the quantity as entered in the clearance bill-of-entry will be noted on the warehousing bill-of-entry and duty paid accordingly. When the last quantity of salt under each bond is cleared, the bonder shall make good the deficiency, if any, between the amount of duty originally entered in the warehousing bill-of-entry and the total amounts of duty paid, less an allowance, on account of wastage, if such wastage has actually occurred, which shall not exceed 2½ per cent. on the whole quantity warehoused.

15. In addition to the above rules, the rules contained in sections VIII to X of the Salt Manual shall apply generally to all salt conveyed under bond from Chittagong and warehoused at Naraingunge.

16. It is to be understood also that before permission can be given to transport salt to Naraingunge under bond, the bonder will be required to construct a suitable warehouse at Naraingunge, to be approved and licensed by the Collector, together with suitable accommodation for the warehouse establishment, also to be approved by the Collector. He will also be required to enter into an engagement with the Collector to defray the cost to Government of the establishment noted in the margin, which will be appointed by the Collector for the guard and supervision of the warehouse.

1 Darogah on	Rs.
2 Peons, at Rs. 6 each	50

The rules contained in paragraphs 5, 11, and 13 of section II of the Salt Manual shall apply generally to the appointment and payment of this establishment, and to the construction and repair of the warehouse and establishment accommodation.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 14.)

BAY OF BENGAL—GULF OF MARTABAN.

APPROACHES TO THE RANGOON RIVER.

Reported alteration of China Ba-keer Sands.

THE Port Officer, Rangoon, has notified that information has been received from the senior officer in charge of the pilot vessel *Pharos* of a material alteration in the position of the edge of the sand in the neighbourhood of the China Ba-keer Light-house.

The vessel, when approaching the light-house on a west-by-south direction on the last quarter flood, passed over a ridge with no soundings on it, the water thereafter shoaling quickly to 12 feet.

From examination, taken in connection with the evidence collected, it is believed that there is dangerously shoal water extending half a mile seaward of the light-house, and that there are dry sands where formerly there were 12 feet of water at lowest tides.

NOTE.—Mariners are hereby cautioned to give that part of the coast a wide berth.

BAY OF BENGAL—COAST OF OR

FALSE POINT.

Reported Shoal in Harbour.

THE Port Officer, False Point, has notified the existence of a shoal (over which the steam-ship *Chindwarra* passed while being berthed on the 8th April last) off Reddie Head (the northern approach to False Point Harbour).

This shoal, about 100 feet in diameter, with a least depth of 19 feet 6 inches on it at low water spring tides, lies with the following bearings:—

The three beacons in one.

The first or western post or Geary's mark (on Reddie Head) in one with the Red buoy inside of the harbour.

The wreck buoy a little open to the north of Temple tree.

A fifth class red buoy will be laid on the centre of the shoal which is in the anchoring ground generally used by the British India Steam Navigation Company's steamers.

NOTICE TO MARINERS.—(No. 14.)

BAY OF BENGAL—GULF OF MARTABAN.

APPROACHES TO THE RANGOON RIVER.

Reported alteration of China Ba-keer Sands.

THE Port Officer, Rangoon, has notified that information has been received from the senior officer in charge of the pilot vessel *Pharos* of a material alteration in the position of the edge of the sand in the neighbourhood of the China Ba-keer Light-house.

The vessel, when approaching the light-house on a west-by-south direction on the last quarter flood, passed over a ridge with no soundings on it, the water thereafter shoaling quickly to 12 feet.

From examination, taken in connection with the evidence collected, it is believed that there is dangerously shoal water extending half a mile seaward of the light-house, and that there are dry sands where formerly there were 12 feet of water at lowest tides.

NOTE.—Mariners are hereby cautioned to give that part of the coast a wide berth.

By direction of the Government of Bengal,

J. MENTEITH BRENNER,

Offg. Port Officer of Calcutta.

NOTICE TO MARINERS.—(No. 18).

RED SEA.

Shoal ground off Jebel Zukur.

Information has been received from the Agent of the Liverpool Salvage Association at Aden, communicated through the Political Resident, Aden, dated the 8th February 1883, of the existence of a sunken rock (near where the *Gulf of Finland* struck on the 18th October 1882) lying off Jebel Zukur island.

The rock, with a least depth of 15 feet over it, lies two cables E. N. E. from the East point of Jebel Zukur. It is outside the *Gulf of Finland's* present position, and does not appear on the Admiralty Chart of the Red Sea.

In calm, hazy weather the channel between Jebel Zukur and Abu Ail islands ought not to be used at night. In such weather the high land has a peculiarly distant appearance, and East point is so low, with white sand behind it, looking at night like water, that it is not seen from a vessel until she is on it, or at any rate too close to be safe. Great caution is therefore necessary when navigating in this vicinity.

NOTIFICATION.

The 23rd April 1883.—It is hereby notified, for the information of merchants and officers interested in the trade between False Point and other ports, that a telephone line has been laid and is in working order between False Point Light-house and Hookeytollah, the latter point being in telegraphic communication with Calcutta, and that a signaller has been appointed at the light-house to communicate with ships in the offing.

Ships can be signalled from the light-house, in ordinary weather, at a distance of five miles; in very clear weather, six miles; and in hazy weather, not more than three or four miles.

Owing to the sands lying off the Mahanuddy, ships cannot at any season approach False Point Light safely within four miles, or in the monsoon five miles.

The transmission of telephonic messages between False Point and Hookeytollah will be charged at the ordinary rate for inland telegraphic messages, besides Re. 1 for each message for the use of flags.
